

Just Another Stall

Refusal of the Canadian National Railways to keep the \$100-per-room rate of taxation imposed by the city for the enlarged Macdonald hotel is an obviously stall it is pitiful.

Walter S. Thompson, director of public relations for the railway company, telegraphed:

"If these (charter) amendments will fix taxation at \$100 per room, it will undoubtedly influence the company's decision. It would be extremely difficult for the hotel to meet a demand that a taxation rate should be applied."

This is about the most utter nonsense ever talked by any railway official.

The CNR Corp. Harry Galt in Winnipeg pays a city tax rate of approximately \$150 per room.

The CNR Chateau Laurier in Ottawa pays a city tax rate of approximately \$155 per room.

Does the CNR suggest that these two hotels are operated at a loss for wheat charity's sake?

And even if they are being operated on a charitable basis, which is incredible, why are Winnipeg and Ottawa more deserving of CNR beneficence than Edmonton?

In other words, if the CNR willingly

It Has To Be Paid

In order to sell 140 million bushels of Canadian wheat to Britain, the Canadian government has agreed to pay \$23 million to Britain, with but the very slightest hope of getting it back in any sense of time.

That transaction alone means that the farmers will gain this wheat and are to be furnished by other Canadians with the goods and services which the Canadians have to give up, or at least goods which the Canadians produce a whole to produce without any return.

When wheat is actually sold abroad, the wheat goes out of the country, but goods come in to repay Canadians for furnishing the growers of the wheat with what they wanted. When the wheat is given away, then the people of Canada as a whole are simply out all the goods and services which went to the farmers who grew the wheat.

There is no argument against giving wheat to Britain. Even to the most natural thinking, this is probably a pretty big part of the Canadian economy, but do not let us fool ourselves.

The Canadian government buys wheat from anyone and gives it to anyone in another country, then the Canadian people have to support the man who grew this wheat, without getting any immediate return from him.

A Real Canadian Capital

Every Canadian should see the short film prepared by the National Film Board on the planning of Canada's capital—a picture not being shown at the Capitol theatre in Edmonton towards the end of this week.

This movie short indicates how badly Ottawa needs replanning and what is being done in that respect.

When it is remembered that the repre-

pays \$155 and \$153 a room in Winnipeg and Ottawa, what possible kick can they have against \$100 a room in Edmonton unless they are deliberately giving Edmonton the run-around?

The coy attitude of the CNR in this matter is even being reflected in the federal government.

Commenting on the sum of \$500,000 which has been earmarked in the CNR budget for this year's work on an extension to the Macdonald hotel, Transport Minister H. A. Galt said that a taxation rate of \$100 a room would undoubtedly result in a delay in building the extension.

Clearly, Mr. Galt's pre-knowledge of the CNR's attitude indicates that the CNR is deliberately being Red.

Edmonton is a CNR town. It has done a great deal for the CNR and has poured substantial sums of money into CNR pockets.

If the CNR will not honor its obligations to this city, if it insists on discriminating against Edmonton in favor of Ottawa and Winnipeg, Edmonton people and Edmonton firms will know how to retaliate.

The city has grown a little too large to be slapped around.

Letters to the Editor

Erratz Milk Too

Editor, Bulletin—Now that we have heard the pros and cons on margarine and it is apparent people prefer "easier" products, it is up to the "easier" farmers to make a profit for us and cream, manufacture the same, pay themselves good wages and they certainly do not at present.

Transportation

Editor, Bulletin—Would you please publish this letter in your paper for my and the greatest number of people who have to walk miles more blocks for transportation?

I am sure if the heads of Edmonton and the surrounding area could take a look north of 118 avenue to 124 avenue they would be surprised at the condition of the roads in this area have developed.

That area and would consider aid be in the way of transportation aid to the people who are raising mothers, expectant mothers and also the working man.

How about?

Wholesome Products

Editor, Bulletin—Will you allow somebody who is a foreigner in the country to write a letter to the government of Alberta for its recent law on margarine?

The author is intended to be a protection for butter, will soon become a protection for margarine. Butter is a vegetable product, is more wholesome than butter, and when this new law is passed, margarine will become almost universal butter being used for cooking.

Margarine will then need to be protected, as the second class restaurants will be able to buy butter, instead of the more wholesome vegetable product, manufactured by the same company.

Margarine will be used for cooking, for the concentration of butter.

True, war aid are the people in other ways. But as in all things, we must be careful.

World War I cost \$180,000,000. This money would have been spent for the betterment of mankind with such a fabulous sum. Surely if we can't afford to spend so much money on wars, it could grant more for paying old age pensions, mother aid, etc.

World War II cost five times as much. Think of all the waste.

World War II cost \$1,000,000,000. This money would have been done for the betterment of mankind with such a fabulous sum.

In the first instance I should like to point out, it was not \$60 million that was spent on the war, but \$600 million on the war.

In the second instance, it was \$600 million to two million minutes rest between periods.

DISTRICT NEWS IN BRIEF

Dominion Health Grants Explained

WETASKIWIN, March 24.—A. B. Haarstad, president of the Bentley district and a member of the Alberta Health Survey Committee, addressed an audience of Trade on Monday evening, explaining the main grants of the \$2,000,000 which forms Alberta's share of the Dominion government's \$30,000,000 health program.

Mr. Haarstad said the committee had conducted a health survey of the province. He thought perhaps the health survey should have been done earlier, but as it had not, the next best thing was that it should be made as soon and as complete as possible.

The speaker thought it would take the better part of two years to complete the survey and the grant for that purpose \$42,500 might prove inadequate. The committee had made a number of points. Members of the committee had voted to win on April 12 and Mr. Haarstad urged that as many interested people as possible should turn out. The committee would be able to fully explain the nature of the grants and the conditions of all grants.

In addressing the speaker thought, practically all of the things for which grants are, or will be available, giving some explanation of the grants and the professional training grant he saw in that a possibility of getting the grants.

Where grants for this purpose have been made he said it had been requested that the person receiving the grant and instruction should sign a contract so that the express grant would be returned if the person would not return to the institution from which they had been released to take such training.

The speaker also said that he would sponsor the April 12 meeting, arrange a suitable hall and notify individuals of the importance of the importance of the meeting.

Following a report from the salary negotiating committee the members of the Grande Prairie School District saw good consideration attention. Various interesting and appealing features were mentioned and a general feeling of solidarity and support for the proposal of the negotiating committee was established.

WOLF NOT AT DOOR JUST IN DISTRICT

WESTLOCK, March 24.—The wolf didn't come to the door, but it was hanging about in the neighborhood. And it paid the penalty under the sights of E. Gowin's gun. The wolf, a large male, was shot dead for a short time on the back of the Gowin's truck on Westlock's streets.

The big grey beast measured a good six feet from nose tip to tail tip. There was no estimate of its weight, but it must have been considerable in view of the fact that the animal was wearing, showing, and Mr. Gowin shot the beast a few miles from his home as he noticed it while he was driving in the district. A single pellet, from a 25-35 did the trick. But he indicated he was going to keep his weapon loaded as it is understood there are more of them in the district.

Frogs on the Roof tops, Frogs on Tiles

LINCOLN, England, March 24.—(AP)—Pope Pius of Manos Road, Lincoln, are keeping their doors about ajar to let frogs in. The frogs invaded the district Tuesday night from a nearby cemetery.

The frogs arrived "like an army," one resident said, and crawled "like two or three old men at a stretch."

Residents used electric torches to avoid stepping on the frogs, according to the hundreds.

The invaders are believed to have come from a shambled-out sewage water tank in the cemetery.

No DPs With Research Council

NEW YORK, March 24.—(AP)—Emmett Edward, 40, who was charged with shooting a Roman Catholic priest in a church confessional Jan. 29 was committed yesterday to a state hospital for the criminal insane. The priest was injured slightly.

Mail Carriers' Bonus To Be Joined to Pay

OTTAWA, March 24.—(CP)—Postmaster-General Bertrand announced yesterday that the government has decided to merge the special wartime bonus payments to rural mail carriers into the individual contracts as they come up for renewal.

Moving legislation to authorize this program was introduced in the last two years parliament has extended the provision for making the payments, initiated during the war to help the carriers to overcome higher costs of carrying the mail.

Now, however, it was planned to merge the bonus with the cost of each contract. No further bonus would be given. The bonus would be awarded only when requested and then only after a study of the carrier's cost.

The enabling bill was introduced and given first reading.

R. D. Shaw, (BC) Red Deer) argued that the Dept. should be taken to give the carriers a better break. A useful purpose could be served if a uniform bonus was given.

Mr. Bertrand said it was easy for members to suggest a new system of paying rural mail carriers. However, it was impossible to arrive at a uniform rate for the rural carriers because of the routes and work of each of them varied.

Two Die In Fire After Rail Wreck

SAN SEBASTIAN, Spain, March 24.—(AP)—Two rail workers died Tuesday night when a train was derailed near here, setting 20 carloads of dynamite afire.

Unofficial reports attributed the incident to sabotage, part of a new nationwide flare-up of underground activity.

Lethbridge Tories Will Nominate

LETHBRIDGE, March 25.—(CP)—W. E. Huskett, president of the Lethbridge Federal constituency committee, announced yesterday that a nominating convention has been called for April 6, when a candidate will be selected to represent the party in the Federal election.

Nearly 2,000 new village post offices will be opened in India during the financial year 1949-50.

Oleo Sale Seen Blow to Dairymen

VANCOUVER, March 24.—(CP)—The national dairy council today at its annual meeting predicted "serious damage" to the dairy industry from the sale of margarine.

Les Marshall of Fergie, Ont., said the butter substitute was responsible for a 10-14 cent drop in firm's butter sales in 1948.

"Butter sales have dropped 50 per cent in some places. The price of good milk cows has fallen \$50 to \$100."

PRAIRIES HIT HARD

J. S. Turnbull of Regina said the impact of margarine would be more pronounced on the prairies, where the prairie cow has always been the best form of insurance in time of need.

John C. Creighton of Tatamagouche, said sale of the substitute will "completely" disrupt the agriculture program in Prince Edward Island, which formerly sold half its butter output in his province.

The council voted to its board of directors a resolution urging that federal and provincial governments ban the sale of margarine, and require that it be labelled in eating places where it is sold.

At the same time an eastern delegate reported some dairymen were preparing to ban margarine from their stores, and if the industry should handle the substitute, he said:

"LOOK FOR GUIDANCE
The council will call a meeting for a two-day meeting. Police arrested 100 persons for disorderly conduct. They called themselves to impose order.

H. A. Derby of Ottawa said the dairymen may not now be able to sell margarine legally. Existing

legislation forbids him to have on his premises any substance which could be used to adulterate butter.

100 Are Arrested In Red Rioting

BURGAS, March 24.—(AP)—Delegates to a pro-Communist Argentine Slav congress fought with police yesterday in a riot that killed 100 persons.

The congress, which has an annual audience with the pastor and lenient presachers of Rome.

MOTIVES COMPARED

"Desire for heaven," he said, "is a good political motive, but it is of eternal punishment, but from this it does not follow that it is the most effective motive to hold people to the faith," he said.

The priest added: "The most important motive is to convert them to God."

The Pope criticized films, magazines and books that "lead people to a movement away from religion."

"Propaganda for an earthly life where God is open, seductive, continuous," he said. "Often God is not denied, but it is not cursed."

"The Pope said that the first truths of faith . . . is more than ever urgent . . . and so is the preaching of the gospel. . . . The Pope said such a subject must be handled with dignity and tact."

Even in films considered morally acceptable, he said, "men live and die as though there were no God nor redemption nor Christ."

"When one thinks of the causing crudeness and immorality shown in newspapers, in magazines, in books, in the press, and of the unnecessary aberration of parents who go with their children to see such things, one shudders with shame," the pontiff said.

THOUGHTS FOR FUTURE

He said it is "arrowroot" to see so many—"among the many catholics—living as though their only duty is to go to church, with nothing of any thought of the beyond and of eternity."

"The Pope said that the first truths of faith . . . is more than ever urgent . . . and so is the preaching of the gospel. . . . The Pope said such a subject must be handled with dignity and tact."

Had a delegation of Transit System employees in to see me the other afternoon. They had a special pet peeve against the Toronto transportation expert, Norman Wilson.

★ ★ ★

Remember Mr. Wilson? He's the chap hired by Mayor Ahlays and city council to diagnose and prescribe against publicly-owned transit system. And give us all the answers. Remember also the expert Wilson alighted from a CNR Pullman and without so much as a bow or a smile, after passing trolley bus, loudly proclaimed: "You would look all the time for a bus on the steps of a Pullman. A fellow has to go through the official mail to find you. Know."

★ ★ ★

Surely you remember what happened next. A week or so later, the city fathers an interim report recommending a raise in train fares. Wilson's answer to this report was to get it down on paper. Expert Wilson probably thought it would look all the time for a bus on the steps of a Pullman. A fellow has to go through the official mail to find you. Know."

★ ★ ★

Council of course raised the fares quick like and Mr. Wilson mailed his report back to Toronto two or three weeks later.

It was a sort of Alice Through the Glass Glass from start to finish.

Remember Alice in the Land where everyone is a little bit mad? They executed the criminal first, then held the trial with the crime coming last of all.

★ ★ ★

But to get back to Transit employees and their peers against Mr. Wilson. When they wanted to know what the man had invited expert Wilson to have a round-table discussion with, he said: "They wanted to tell him what they thought was wrong."

The experts, however, believed they possessed information that would prove of real value to a man prepared to devote time to thoroughly investigate the system. Seems to be considerable logic in their attitude at that don't you think?

★ ★ ★

But Mr. Wilson didn't think so. He thought the offer of co-operation was a good one and he worked on the system for half their lives so unimportant he did not consider it.

"We never once saw Mr. Wilson nudge a bus or a streetcar the other way. When we drivers told him I have been told the best investigators always talk to the men who actually make the wheels go around."

★ ★ ★

Main recommendation the drivers wanted to make to Mr. Wilson was that he should be a personnel manager for the system. They told in the morale of employees.

"We are not gunning for any top official," they said. "They want to see Edmonton's Transit System is now such a big enterprise that the superintendent and his staff should be far too much to do. They believe a highly-trained personnel manager is the key to hiring and firing and enforcement of discipline would strengthen the efficiency of the system to an extent that would be an eyesore."

Gun-Pointer Draws Fine

An Edmonton man who last week was remanded to prison for medical examination after he was captured at gunpoint, was fined \$40 in court yesterday for pointing a gun.

Mike Hrycay, 39, 9648 Ave. 22, pleaded guilty to pointing his 22 calibre at last-drawn-in Joseph Aussant, 21, 101st Street, at 11:30 p.m. on March 15. A shot was discharged into the ground after Aussant had pushed away the rifle barrel, court was told.

Aussant told police the incident never occurred after he had detained a passenger to Hrycay's house. Hrycay was said to be drinking heavily at the time.

Crisp White Blouse Swirls Of Spring Suit Ensembles

As great a white hope as blouses are for stretching a wardrobe, more mistakes seem to be made when buying blouses than almost any other accessory.

BRIDGE

To Set Hand, Both

Defenders Hold Up

By William E. McKenney

Toda's lesson hand was given to me by Philip M. Wertheimer of London, who, in his book, "Bridge for the Beginner," says that the lesson plan is one good reason that the amateur plan is one good reason that the dealer, generally employed by the dealer, but in this hand the amateur plan must be employed by both dealers.

The three no trump contract looks like a good one to me, but North and South having seven card points. Nevertheless, game can be made, and it was quite a problem to defeat those no trump.
